

Hello,

On the following pages, please find Role Definitions for the Education Program and the anticipated Pet Responsibility Education schedule. Please understand that our Committee is not able to select specific dates or times for the classes. Because we work closely with the Guidance Counselors at each school or specific program sponsors at each school - they often give us their class period which means that each school is different.

Please review the schedule below and if you see your name listed it means one of two things:

Yellow highlighting means you are confirmed and expected at that school OR

Green highlighting means I am waiting for you to confirm - **please let me know ASAP**

Blue highlighting means that I need someone to fill that spot - if you are available and willing - please let me know and I will put you on the schedule.

As you can imagine, this is a very fluid document - and we are doing the best we can. Of course, if something changes or you are unable to make a scheduled date - we are more than happy to work with you. Please, just let me know as soon as you can.

Confirmed, **Pending/Need Response**, **Request**, **Exception**, **Please Note**, *has therapy dog

Thanks,

Mary Ann Root

PRC Education Program Role Definitions

Pet Responsibility Title	Names	Role
School Coordinators	Angela Zumwalt Barb Ross Mary Ann Root Judy Pund	Responsible for the initial meeting with the Elementary School staff (typically the Guidance Counselors, 4 th Grade Teachers, Media Center, etc.) to introduce the Pet Responsibility Education program and answer any questions. After the School agrees to host the program, the School Coordinator will meet with the 4 th grade teachers to review the curriculum, the equipment and materials needed for each class and determine if there are any students with special needs. Determine the schedule and determine the location of each class.
Lead Teacher		There will be <u>one</u> lead teacher per school. This individual will be one of the PR teachers at the school. They will be the Guidance Counselor and the other Pet Responsibility teachers' contact person should any changes and/or problems occur. They are responsible for resolving any problems that arise at the school. This person will be responsible for “hosting” the Assembly. Responsible for introducing guest speakers, setting up equipment, and ensuring things run smoothly. Responsible for coordinating with the appropriate school personnel on various projects, including: PRC book donations (if applicable), Art Projects/CLINIC Bags, Display boards and any other special projects that may apply to their school. Send thank you notes to guest speakers. They will sign-in and sign-out the other teachers, helpers and guests - this will eliminate a logjam in the office area.
Teacher		Responsible for bringing their materials, teaching the session, and introducing classroom guests.
Co-Teacher		Responsible for sharing the teaching with another teacher. The teachers can divide the session to accommodate their schedules and comfort level.
Helper		Responsible for helping the teacher in the classroom, i.e. distributing worksheets, writing on the smart board, etc.
Therapy Dog Volunteers	Linda Evans	Attend Pet Responsibility classes when available and reinforce the messages taught. Present their dog as an example of a well-cared for and well-trained dog, quite comfortable to be with humans at all times.
Guest Speaker Coordinator	Barb Ross	Responsible for contacting, communicating and scheduling the guest speakers. Responsible for coordinating with the Lead Teacher at each school.
Mascot Coordinator	Mary Smith	Responsible for coordinating the Speuter Costumes.
Communications Coordinator	Angela Zumwalt	Responsible for coordinating all aspects of communication regarding the Committee, i.e. newspaper articles, attending events, etc.
Volunteer and Evaluation Coordinator	Mary Ann Root	Responsible for scheduling the classroom volunteers and for sending out an email survey to the regular teachers at the conclusion of each school's program. Responsible for collecting and compiling the information received.
